

ELEVATE

EGG DONORS - SURROGATES

INTENDED PARENT
FEE AND PAYMENT SCHEDULE

At Elevate we want to make the process of having a child a joyful experience. We developed our surrogacy program to specifically address issues that typically cause delays, add stress and incur additional fees.

At Elevate we feel it is misleading how some agency's fees can be full of hidden and additional costs. In simplifying our fee structure we are able to present a clearer view of what is financially expected.

While some items will always carry a variable cost, Elevate's Inclusive Pricing Structure takes away some of the guesswork by including major items like Surrogate Life Insurance, Psychological Assessments, Home Reviews, Background Checks, Escrow Services and *all* legal work including Contract Drafting, Court Document Review and obtaining the Judgment of Parentage.

It is our hope that by streamlining this process our clients will be able to focus on what is important: ***building your family.***
