Medical Clearance

If your donor is not cleared by your physician (low AMH, AFC, Infectious Disease Testing, Carrier Screening match or any other medical reason) then you will be rematched with an Elevate donor of your choice and not be responsible for any additional coordination fees, psychological assessment fees, AMH fees, genetic counseling and pedigree costs, insurance policies, escrow or legal services for the intended parents and the donor.

Sometimes a donor is not medically cleared because of a matching carrier mutation with the intended parents. Though unfortunate, the Summit Package still acts as a guarantee program and our agency will rematch you at no additional agency fee or screening costs.

DETAILS

One Viable Embryo Guaranteed

Summit assures you have at least one (1) viable embryo post preimplantation genetic testing (PGT). A viable embryo is defined as an embryo that an IVF physician deems satisfactory for implantation via an embryo transfer procedure. If there is no viable embryo then you will be rematched with the same or a different Elevate donor at no additional cost for another cycle.

Medical Administration Additional Course With Our On Staff Nurse

Donors are often overwhelmed after their first visit to their clinic and can forget important information on how to administer medication. Your donor will experience a tailored session with our on staff nurse via Zoom or FaceTime on her first night of meds to help ensure the medication is administered correctly, ensuring the follicles start off on the right foot.

Monthly Donor Care Package & Retrieval Gift

Your case manager will carefully curate a care package and ship it to your egg donor each month she is "in cycle". She will also send a special gift to her on the day of her egg retrieval.
